

MAXOutreach[®]

Extend Your Recruitment Reach. Exceed OFCCP Requirements.

The Office of Federal Contract Compliance Programs (OFCCP) requires companies with Federal contracts to thoroughly track Internet recruiting activities. Under these strict regulations, Federal contractors and subcontractors not only have to maintain stringent records for reporting purposes, but must establish relationships that reflect their outreach efforts in a consistent manner across all applicants. Since the laws were introduced, companies large and small have struggled to comply with the requisite recruiting rules and exacting reporting requirements until now.
